Wednesday's news: politicians push for Mary Robinson, and Women's Lobby organises a demo

18.11.2009 | In: [News](#)

The [European Women's Lobby](#) (now a supporter of our campaign) organised a protest in Brussels today. You can see the photos of the event [on Flickr](#).

[The Parliament](#) also reports that a cross-party group of MEPs is urging Mary Robinson to reconsider rejecting the idea to become President of the European Council. Vaira Vike Freiberga's name remains in the running for that post.
